

Nature Portrait

You are going to try and make a nature portrait. Before you have a go at this you may want to either look in the garden for some twigs, leaves, berries and other bits. Or why not go for a walk and collect some of these.

Steps	Instructions	Images to help
Step 1	First gather everything you need: <ul style="list-style-type: none">- Paper- Pen/pencil- Leaves- Twigs- Berries- Dry needles (from trees)- Glue stick	
Step 2	Draw your face. You may want to draw your own face or someone else's. Don't forget to add in the features such as eyes, nose mouth etc	 
Step 3	When you have drawn your face place your 'bits of nature' on the paper making the eyes, nose, ears etc..	

Step 4	When you are happy with where you have placed everything. Stick them all down with your glue stick.	
Step 5	You may want to go over bits of the original drawing with a felt tip pen or a darker pencil crayon.	

We cannot wait to see your nature portraits!
