

## Activities for the week beginning Monday 20<sup>th</sup> April 2020

Dear Reception children,

We hope that you are all staying safe at home. We are all missing you and can't wait until we're back at school! In the mean time we've put together some activities for you to do at home with your parents this week and remember to check back again next week for more!

Just follow the instructions for each day, read through the challenges with a grown up then complete as many as you can. If you do a great job, why not post them to our Twitter or Facebook page? We'd love to see them!

Stay safe and have a great week!

Miss White, Mrs Ratheram, Mrs Hyde and Mrs Wilkes.

<p>Extra challenges</p>	<p><b><u>A Housebound Treasure Hunt - After learning about treasure maps this year Reception love making them!!</u></b></p> <p>Create a map of your home and hide small items around it. Mark each piece of hidden treasure on the map. Explain the map to your little one and offer your support for the hunting game in case they need it.</p> <p>If your children are older you can use word cards describing a place where you have hidden an item. For example: "I am cold and make a 'bing bing' noise if left open". The answer is the fridge, of course. You're children will love this combination of a quiz and hunt. It's hard not to get in on the fun, too.</p> <p>Even once they've found all the treasure, why not get them to organise their own hunt? They can draw their own map or come up with their own cryptic questions to send you on a great search.</p>	<p><b><u>Have a Birthday Party for your child's Favourite Toy</u></b></p> <p>It could be anything from just a pretend tea party or a big party with music, balloons, treats and party games (think Musical Statues, Pass The Parcel and Simon Says). You can even think about inviting some of your child's friends over to join in the fun. And party balloons will still give the kids endless fun even when the party is over.</p> <p>One tip from our side: start with a little smaller party as we are convinced that your children may ask for more parties like this. Be prepared to have a few ideas in reserve in case all the toys start piping up and saying their birthdays are coming up, too.</p>	<p><b><u>Build a Den or Cave</u></b></p> <p>Children's imaginations go wild with this activity. From planning the build - what will they use to make their den? Can they gather the materials themselves? - to playing inside of it, each step is an absolute pleasure. Hopefully they'll be inspired to come up with exciting, fun-filled role play, or simply enjoy a change the scene and play with their toys 'hidden away' in their cave.</p> <p>The easiest way to create a stable den is through using a blanket or bed sheet and cover a table or some other furniture moved together. You can create quite a spacious den using four chairs arranged in a square with the blanket placed over the back rests. Add few cushions added into the cave and your kids will have a great time for sure.</p>	<p><b><u>An indoor fashion show</u></b></p> <p>Get your favourite clothes, dress ups or even mummy's or daddy's clothes out and strike a pose!</p>	<p><b><u>Create your own TV show! - We have explored how to use the camera on ipads in school.</u></b></p> <p>You could use toys, puppets and even film your debut episode! Can your child write the story of what will happen? Get siblings and pets involved too.</p>
