<b><u>TOPIC</u></b>				

Look at photos of, and information about, the contents of Tutankhamun's tomb. Generate questions about the contents and write them on sticky notes. Consider what these artefacts and objects might tell them about the ancient Egyptians and the 'boy pharaoh'. Think about and articulate the information the objects and artefacts cannot tell them.

**The mummified body of Tutankhamun tells us his age, height and even what diseases he had. Explain how ancient artefacts found in his tomb were viewed as treasures and were therefore vulnerable to tomb robbers.**
